

Makedonka Eftimova

UI/UX Designer

BIOGRAPHY

Hello,

I'm UI/UX designer with more than one year experience.

I've done 5 case studies, you can check them out at my UX Portfolio provided.

I'm detailed oriented for UI and I can say that I love to do user reaserch because that is the first reason why I've started learning UI/UX.

Also to say that I'm Software Engineer with 2+ years experience and combined that experience with UI/UX design process is much easier.I have a keen eye for detail.I'm proficient in creating minimalistic and user friendly websites which fulfil the purposes of business. I believe that every change is an opportunity to learn something new. I'm always open to interesting projects!
